About Us

Shri Vari Clothing Company, situated in Tirupur, India, a globally acknowledged center for high-quality knitwear manufacturing, stands as a distinguished garment producer. Leveraging decades of accumulated expertise and a steadfast dedication to superior quality, the company serves a diverse international clientele. Shri Vari caters to prominent global brands, wholesalers, and corporate procurement entities spanning Europe, and North America providing them with expertly crafted garments. The company's strategic location and unwavering commitment to excellence position it as a key player in the global garment industry.

Our vertically integrated facility merges traditional craftsmanship with advanced technology, providing comprehensive end-to-end solutions from fabric production to finished apparel. A skilled workforce of 550 employees, including 50 management professionals, ensures excellence throughout the manufacturing process. Typical order fulfillment ranges from 45 to 90 days, balancing efficient delivery with stringent quality control to satisfy the demands of our international clients. Shri Vari Clothing Company prioritizes sustainability through its core operations. The company utilizes 70% renewable energy sources, including a 300 kW solar power installation, to minimize environmental impact and maintain operational efficiency.

Machinery Details

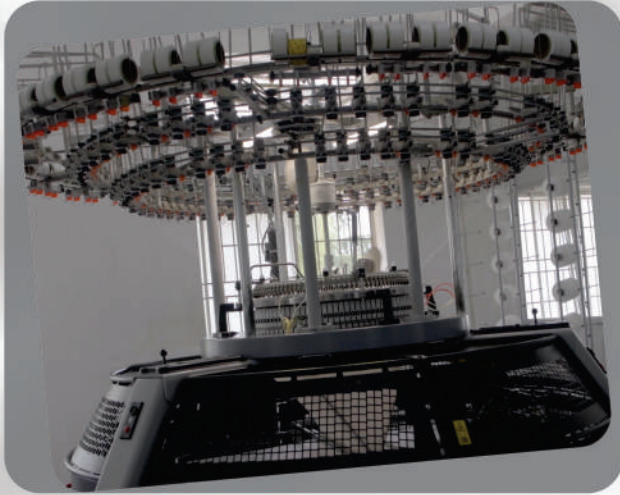

INFRASTRUCTURE

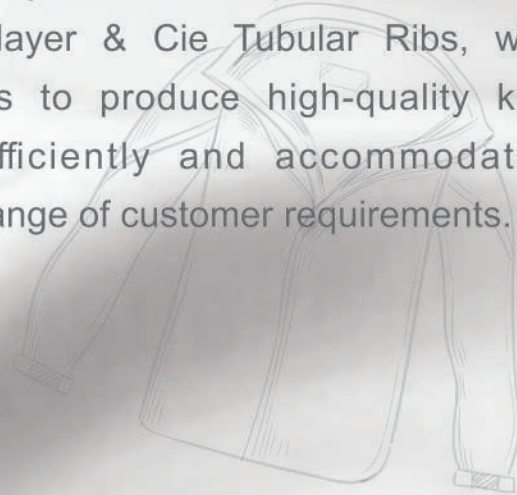

Shri Vari Clothing Company has some excellent garment production units which is well designed with ample workspace, adequate natural lighting and extensive ventilations. Ray Shine Apparels in-house garment production facility is well equipped with latest state of the art machinery in fabric cutting, fusing, sewing, finishing & packing, resulting in better quality & higher efficiency in productivity. Every style is time & method engineered to improve productivity & achieve delivery deadlines.

KNITTING

We have a daily production capacity of 10 tons, enabling us to knit various styles such as Single Jersey, Layer Jersey, Interlock, Single Ribs, Long Ribs, Loop Knit, Terry (2T, 3T), and custom designs tailored to our buyers' specifications. Our machinery includes Mayer & Cie Tubular Jersey, Mayer & Cie Open Width Jersey, and Mayer & Cie Tubular Ribs, which allow us to produce high-quality knit fabrics efficiently and accommodate a wide range of customer requirements.

We boast a robust printing capacity, with automatic printing capable of producing up to 15,000 pieces per day and digital printing handling around 5,000 pieces daily. Our expertise lies in offering a wide variety of printing options, supported by a versatile printing unit equipped with both table and machine printing facilities. This enables us to execute a diverse range of print techniques, including pigment prints, plastisol prints, discharge prints, glitter prints, flock prints, foam prints, digital transfer prints, high-density prints, and more.

PRINTING

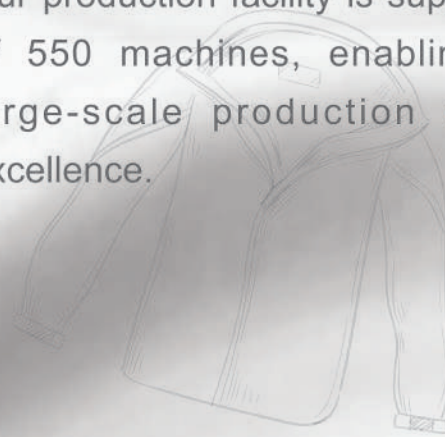

Garments are manufactured using the most advanced, state-of-the-art machinery within our in-house production unit. Our extensive range of high-tech equipment ensures the production of high-quality products efficiently. The strength of our manufacturing capabilities is a key factor in our continued growth and success in this highly competitive industry. Our production facility is supported by a fleet of 550 machines, enabling us to meet large-scale production demands with excellence.

STITCHING

Our internal production facility is highly robust, featuring state-of-the-art, cutting-edge machinery for all manufacturing processes. It boasts a spacious storage capacity of 300 CBM, ensuring efficient inventory management. Additionally, we utilize the latest equipment for precise product cutting and sewing. Our skilled workforce is proficient in garment inspection and ironing, maintaining high-quality standards through every final stage of production.

PRODUCTION

QUALITY

Our Research & Development team, comprised of young professionals, ensures high-quality standards for customers. We customize brands to meet buyer patterns, achieving 100% satisfaction. We invest in R&D for continuous innovation, and collaborate closely with our clientele to exceed expectations.
